

# DAMANDA

La plateforme DAMANDA marque une étape majeure dans la modernisation de l'administration minière guinéenne. Fruit d'un vaste processus d'assainissement, de sécurisation et de digitalisation du cadastre minier, elle vise à renforcer la transparence, la traçabilité, l'efficacité administrative et l'attractivité du secteur minier pour les investisseurs nationaux et internationaux.

Grâce à DAMANDA, les opérations liées aux demandes, au suivi et à la gestion des titres miniers seront désormais traitées de manière dématérialisée, sécurisée et en temps réel, conformément aux meilleures pratiques internationales. Cette innovation permettra également de garantir une meilleure gouvernance des ressources minières, dans le respect du cadre légal et réglementaire en vigueur.

Le lancement de DAMANDA s'inscrit pleinement en droite ligne avec le Programme de développement socio-économique durable et responsable SIMANDOU 2024, conformément à la vision du Président de la République, Son Excellence Monsieur Mamadi DOUMBOUTYA, de faire du secteur minier un levier stratégique de développement durable, créateur de valeur ajoutée, d'emplois et de retombées économiques au bénéfice des populations.

La cérémonie réunira les autorités gouvernementales, les partenaires techniques et financiers, les acteurs du secteur minier, les représentants du secteur privé, ainsi que les missions diplomatiques et organisations internationales.

À travers DAMANDA, la Guinée affirme sa volonté de bâtir une administration minière moderne, performante et accessible, au service de la transformation structurelle de l'économie nationale.

## PROGRAMME SIMANDOU 2020

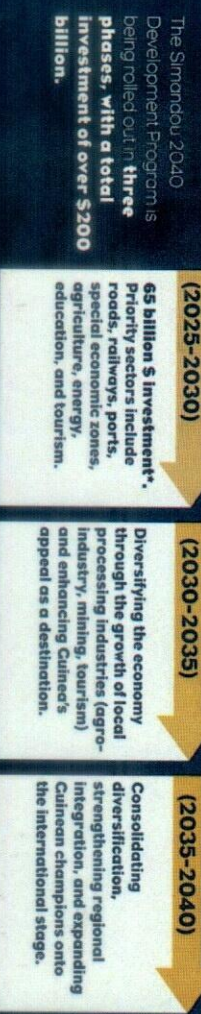

### SIMANDOU 2040 - A PLAN FOR GUINEA'S ECONOMIC TRANSFORMATION

Guided by the vision of H.E. Mamadi Doumbouya to leverage Guinea's natural resources as a driver of economic and social progress, the Simandou 2040 Development Program lays out a 15-year fast-track agenda to position Guinea as:

- 1 MORE PROSPEROUS AND MORE EQUITABLE**  
Through transformative investments in key sectors that drive the diversification of the national economy.
- 2 A RESOURCE-DRIVEN AND DESTINATION ECONOMY**  
Positioned as a leading African hub for business, tourism, and access to quality healthcare.
- 3 MORE SOVEREIGN**  
Through an unprecedented co-development model with international partners, ensuring aligned interests and balanced cooperation.

### SIMANDOU 2040 SUSTAINABLE AND RESPONSIBLE SOCIO-ECONOMIC DEVELOPMENT PROGRAM

Transforming Key Sectors into Engines of Economic Dynamism  
"Simandou must be for us what oil has been for the Gulf countries."

\*Including \$33 billion allocated for the Simandou Integrated Mining Project

# FIVE PILLARS - ONE OVERARCHING THEME - 122+ MEGAPROJECTS

**1** **AGRICULTURE, FOOD INDUSTRY & TRADE**  
 Ensure food security, modernizing agriculture and strengthening local processing to provide affordable essential products.

**2** **EDUCATION & CULTURE**  
 Promote excellence in education, research and innovation through logistic schools and institutes, and strengthen strategic international partnerships. Enhance the global visibility of Guinean culture.

**3** **INFRASTRUCTURES, TRANSPORTATION & TECHNOLOGY**  
 Develop new cities and strategic infrastructure, modern industrial parks and strengthen road and digital connectivity, to transform Guinea into a logistics and digital hub.

**4** **ECONOMY, FINANCE & INSURANCE**  
 Develop SME credit and financing, support investment through the creation of a Sovereign Wealth Fund, and promote financial inclusion.

**5** **HEALTH & WELFARE**  
 Position Guinea as a leading medical destination through the construction of modern, specialized hospitals. Ensure universal access to high-quality healthcare and improve inclusive social policies.

**36** **YEARS**  
**MODERNIZATION OF THE STATE, SUSTAINABLE DEVELOPMENT AND SOCIAL INCLUSION**  
 Strengthen government, combat corruption, enhance judicial efficiency and improve public administration to better serve the population.

## TANGIBLE ACHIEVEMENTS ALREADY UNDERWAY

**Simandou Academy**: A Guinean initiative dedicated to enhancing excellence, inspiring the next generation of engineers, technicians, and executives, including through regulations such as the Guinean Military Polytechnic.

**Miniba Mining Company (MNC1)**: 100% Guinean mining company operating across the entire value chain - from extraction to processing and marketing of bauxite - contributing to an integrated local industrial ecosystem.

**Alumina & bauxite**: Launching of 1.2 million alumina refinery and 250 MW power plant (2023-2027), including 100 MW feeding into the national grid.

**Infrastructure Development**: A nationwide modernization program with major achievements:  
 • Phase 1 of the **Ahmed Sékou Touré International Airport expansion** in 2024 complete.  
 • Construction of over **2,500 km of highways** is underway, improving mobility and regional connectivity in all provinces.  
 • Construction of a **300 MW power plant in Améria** is in progress.

## THE 3 ENABLERS OF THE SIMANDOU 2040 PROGRAM

- **The Simandou Integrated Mega-Project**: Production from this exceptional mining deposit will become a driving force for Guinea's economic transformation.
- **Gained a First Sovereign Credit Rating (B+ by S&P)**: A major step strengthening the country's credibility and attractiveness to international investors.
- **The Creation of a Sovereign Wealth Fund**: Designed to finance major national projects and ensure sustainable development for future generations.
